MILITEC LTD

AC310 LOCAL SOUND UNIT

The AC310 provides realistic sounds suitable for Close Quarter Engagement training sessions. Sounds such as;- Screaming, Shouting, Dog barking, Television background noise, Gunfire, Chanting and Crowd noise, are pre-recorded. The time and volume of sounds are variable up to a max volume of 98dB @ 1mtr.

Other sounds are available on the Internet which may be downloaded and saved in the Matrix control system library, together with users own specific sounds recorded via the AC310's microphone and uploaded to the Matrix Library. A maximum of 50 different sounds may be stored.

The AC310 is connected to a Militec target mechanism via the control input socket on the mechanism's control panel and receives its 12Vdc supply from it.

The Matrix software enables the user to program sounds to occur when particular target actions are selected: -

(a) Target turning to Face
(b) Target being hit
(c) Target turning to the neutral position

Physical specifications: -

Size: Height 260mm x Depth 160mm x Width 190mm
Weight: 3kilos
