## C9004RM INTERFACE UNIT

The C9004RM acts as an Interface between the Militec PC and C9800M Tablet Controller and the target mechanisms.

There are a number of versions available to suit a customer's particular range requirements.

The C9004RM-USB is linked to the PC via a USB lead which also powers the interface. Target Units are then controlled directly from the PC from a dedicated control room.

The C9004RM-F-WIFI is a fixed WiFi interface which would be installed within a range. Powered through a mains power supply and links to a PC or C9800M Tablet Controller through WiFi.

The C9004RM-P-WIFI is a portable WiFi interface which has an internal rechargeable NiMH battery pack which enables it to be used on outdoor ranges.

### Physical Specifications:

Dimensions	Width	190mm
	Height	60mm
	Depth	240mm
Weight approx		2 Kilos
Radio Freq.		400 to 460Mhz
Power output		100mW
IP Protection		IP65
