

MILITEC LTD

C9004RM INTERFACE UNIT

The C9004RM acts as an Interface between the Militec controllers and the target mechanisms.

There are a number of versions available to suit a customer's particular range requirements.

1. Targets controlled from computer located in a dedicated control room – The Interface could be free standing and linked to the computer by a USB lead, with comms to the targets being via the interfaces internal radio.
2. Targets controlled from a C9800M Tablet controller. The interface would be installed within the range and linked to the Tablet by Wi-Fi; in turn the Interface communicates with the targets by radio.
3. A portable version has an internal NiMH battery pack which enables the Tablet controller to be used on outdoor ranges.

Physical Specifications:

Dimensions

Width 190mm

Height 60mm

Depth 240mm

Weight 1.45Kilos

Radio Freq. 400 to 470Mhz

Power output 100mW
